Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	27-10-2026
Team ID	_____
Project Name	Hotel Pro Booking and Management System
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

Functional Requirements – Hotel Pro Booking and Management System

FR No.	Functional Requirement (Epic)	Sub-Requirement (Story / Sub-Task)
FR-1	User Authentication	Guest and staff sign up/login; password reset; secure logout.
FR-2	Room Search & Availability	Search by location, dates, room type, number of guests and price; view available rooms.
FR-3	Booking Management	Select a room, enter guest details, create a reservation, view booking details and cancel or modify a booking.
FR-4	Payment Processing	Show total price, accept online payment, record payment status and provide a booking/payment confirmation.
FR-5	Hotel Administration	Admin/staff can add or update rooms, prices, facilities, availability and booking records.
FR-6	Guest Services & Reviews	Guests can view booking history, submit ratings/reviews and contact hotel staff.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	The interface should be clear and easy for guests and hotel staff to use.
NFR-2	Security	Passwords and personal/payment information must be protected; secure connections should be used.
NFR-3	Reliability	Booking records and room availability should remain accurate and consistent.
NFR-4	Performance	Search results and booking pages should load quickly under normal usage.
NFR-5	Availability	The system should be available to users most of the time, except planned maintenance.
NFR-6	Scalability	The system should support more rooms, guests and bookings as usage grows.
